NVIDIA CRISIS ANSWER SNAPSHOT

How four AI engines answered
12 crisis questions · 96 answers · November 9, 2026

Measured :
November 9, 2026
12 questions × 2 runs × 4 engines · 96 AI answers

Engines :
ChatGPT · Claude · Gemini · Perplexity
Direct provider APIs with web search

Prepared by :
5W Public Relations
5wpr.com

AT A GLANCE

6 of 8 hiring answers named Heller. Only 2 kept the reporting's two-source basis.

6 of 8 AI answers to the hiring question named Heller, but only 2 kept WIRED's two-source basis. Across 96 answers, 23 kept the board's "no reason to believe" wording and 16 cited an Nvidia-owned page. This snapshot measures what the answers said and cited. It does not judge the allegations.

> Day 1 snapshot. Rounds planned for November 12, 16 and 23, 2026 have not been measured yet, so this edition does not show how answers change over time.

96
AI answers analyzed across ChatGPT, Claude, Gemini and Perplexity

6/8
answers to the hiring question that named Heller

24%
of answers kept the board's qualifier (23 of 96)

16.7%
of answers cited an Nvidia-owned page (16 of 96)

KEY FINDINGS

01 What the data shows

THE HIRING QUESTION

6 of 8

6 of 8 answers to "Did Jensen Huang hire a PR firm, and which one?" named Heller (75%; 95% interval 40.9–92.9%). Claude, Gemini and Perplexity named it in both runs. ChatGPT named it in neither.

THE SOURCE CAVEAT

2 of 8

Only 2 hiring answers, both from Claude, kept WIRED's basis that the report came from two people familiar with the matter. The other answers that named Heller stated it without that basis.

THE BOARD QUALIFIER

23/96 (24%)

23 of 96 answers kept the board's "no reason to believe" wording about national security and company secrets. Citing Nvidia did not guarantee it: ChatGPT cited the board statement in both runs of Q2 but kept the wording in only one.

COMPANY SOURCES

16/96 (16.7%)

16 of 96 answers cited an Nvidia-owned page, and 10 cited the board statement itself. Claude cited no Nvidia page in any of its 24 answers; Gemini did in 9.

CRIMINAL CHARGES

8 of 8

All 8 answers to "Has Jensen Huang been charged with a crime?" said no charges were reported or found. Some went further than the reporting supports, with blanket claims of no arrest or legal action.

ENGINES DISAGREE

4 of 12

On 4 of 12 questions at least one pair of engines gave a different core answer (Q4, Q5, Q7 and Q10). "Who is Alice Huang?" split the most: 5 of 6 engine pairs differed in both runs.

02

ENGINE COMPARISON

How do the four engines compare?

Each engine gave 24 answers. Hiring columns use the 2 answers to Q4. These are counts of what each answer contained, not an accuracy ranking: different questions make different facts relevant.

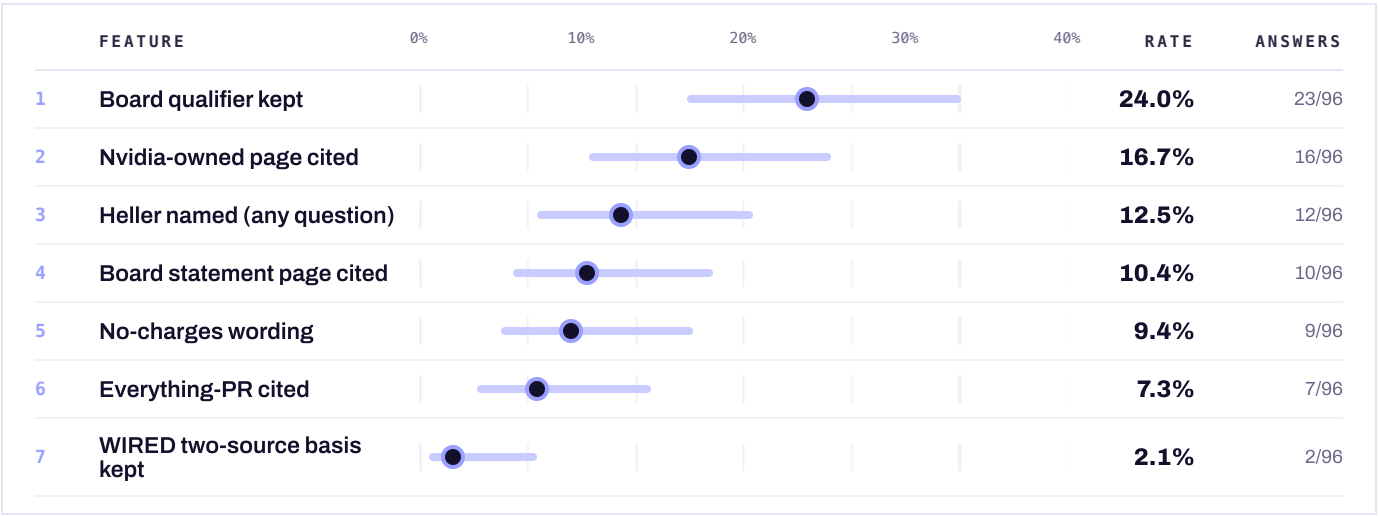

ENGINE	CITED SOURCES	NVIDIA PAGE	BOARD PAGE	BOARD QUALIFIER	HELLER (Q4)	TWO-SOURCE (Q4)	CITATION RECORDS
ChatGPT	24/24	5/24	3/24	2/24	0/2	0/2	66
Claude	22/24	0/24	0/24	8/24	2/2	2/2	107
Gemini	23/24	9/24	5/24	7/24	2/2	0/2	144
Perplexity	24/24	2/24	2/24	6/24	2/2	0/2	90

Uncited answers stay in. 3 answers had no answer-level citation (Claude Q05 in both runs, Gemini Q12 run 1). They count in every wording measure.

MEASURED FEATURES

03 Which features appear across all 96 answers?

Share of 96 answers with each feature. The bar is the 95% interval. Some features only apply to certain questions, so low overall rates are expected.

	FEATURE	RATE	ANSWERS
1	Board qualifier kept	24.0%	23/96
2	Nvidia-owned page cited	16.7%	16/96
3	Heller named (any question)	12.5%	12/96
4	Board statement page cited	10.4%	10/96
5	No-charges wording	9.4%	9/96
6	Everything-PR cited	7.3%	7/96
7	WIRED two-source basis kept	2.1%	2/96

04

MOST-CITED SOURCES

Which sites did the answers cite most?

Answer reach is the number of the 96 answers citing the site at least once. Records count each distinct cited link once per answer, 407 in total.

#	SITE	ANSWERS CITING	ANSWER REACH	CITATION RECORDS
01	axios.com	16/96	16.7%	17
02	finance.yahoo.com	14/96	14.6%	23
03	cnbc.com	14/96	14.6%	21
04	aljazeera.com	13/96	13.5%	14
05	cbsnews.com	13/96	13.5%	13
06	nvidianews.nvidia.com	10/96	10.4%	10
07	nbcnews.com	9/96	9.4%	9
08	apnews.com	8/96	8.3%	15
09	everything-pr.com	7/96	7.3%	9
10	reddit.com	7/96	7.3%	8
11	tomshardware.com	7/96	7.3%	8
12	en.wikipedia.org	7/96	7.3%	7

Disclosure. Everything-PR, cited in 7 answers (2 Claude, 5 Gemini; 9 records), is owned by a group that includes 5W founder Ronn Torossian. Its citations are measured data, not endorsements. No answer cited 5wpr.com.

05

SOURCE MIX

What kinds of sources did each engine use?

Share of each engine's citation records by type of site. Types are set by website, so a wire story republished on Yahoo counts once, as syndication.

SOURCE TYPE	CHATGPT	CLAUDE	GEMINI	PERPLEXITY	ALL ENGINES
Wire / news / specialist news	27 (40.9%)	54 (50.5%)	63 (43.8%)	44 (48.9%)	188 (46.2%)
Other / unclassified	22 (33.3%)	29 (27.1%)	19 (13.2%)	28 (31.1%)	98 (24.1%)
Aggregator / syndication	4 (6.1%)	7 (6.5%)	10 (6.9%)	16 (17.8%)	37 (9.1%)
Commentary / reference	2 (3%)	11 (10.3%)	22 (15.3%)	0 (0%)	35 (8.6%)
Company-controlled	5 (7.6%)	0 (0%)	9 (6.2%)	2 (2.2%)	16 (3.9%)
Institution / official reference	6 (9.1%)	1 (0.9%)	7 (4.9%)	0 (0%)	14 (3.4%)
Social	0 (0%)	2 (1.9%)	8 (5.6%)	0 (0%)	10 (2.5%)
Publisher-owned PR trade / agency	0 (0%)	3 (2.8%)	6 (4.2%)	0 (0%)	9 (2.2%)
Total	66	107	144	90	407

06

QUESTION BY QUESTION

What did each question bring out?

Each question has 8 answers (4 engines × 2 runs). Citation records are summed across those 8 answers.

#	QUESTION	NVIDIA PAGE	BOARD QUALIFIER	NO CHARGES	HELLER	CITATIONS
Q01	What happened with Nvidia CEO Jensen Huang this week?	2/8	4/8	0/8	0/8	45
Q02	Is Nvidia investigating Jensen Huang?	6/8	5/8	0/8	0/8	26
Q03	Has Jensen Huang been charged with a crime?	1/8	3/8	8/8	0/8	28
Q04	Did Jensen Huang hire a PR firm, and which one?	0/8	0/8	0/8	6/8	17
Q05	Who is Alice Huang?	0/8	0/8	0/8	0/8	30
Q06	Is Jensen Huang still CEO of Nvidia?	4/8	0/8	0/8	0/8	27
Q07	Will Jensen Huang testify before Congress?	0/8	0/8	1/8	0/8	39
Q08	Why did Nvidia stock fall on November 9?	0/8	7/8	0/8	0/8	45
Q09	What did Jensen Huang say in his memo to employees?	2/8	2/8	0/8	0/8	25
Q10	What is Megaspeed and how is it tied to Nvidia?	0/8	0/8	0/8	0/8	33
Q11	What should Nvidia do to manage this crisis?	1/8	2/8	0/8	0/8	47
Q12	Which PR firms handle CEO scandals?	0/8	0/8	0/8	6/8	45

One loss of qualifier. Claude's second answer to Q07 turned the board's qualified wording into a flat statement that no national-security information was leaked. The raw answer is kept unchanged in the evidence.

07

AGREEMENT

Did the engines agree with each other?

For each question and run, the four engines form 6 pairs. A pair counts once if its core answer differed. Totals: 8 of 72 pairs in run 1 and 14 of 72 in run 2.

#	QUESTION	RUN 1	RUN 2	CORE DIFFERENCE
Q01	**What happened with Nvidia CEO Jensen Huang this week?**	0/6	0/6	No core difference found
Q02	**Is Nvidia investigating Jensen Huang?**	0/6	0/6	No core difference found
Q03	**Has Jensen Huang been charged with a crime?**	0/6	0/6	No core difference found
Q04	**Did Jensen Huang hire a PR firm, and which one?**	3/6	3/6	Heller named vs firm not found
Q05	**Who is Alice Huang?**	5/6	5/6	Crisis-linked executive vs scientist vs both
Q06	**Is Jensen Huang still CEO of Nvidia?**	0/6	0/6	No core difference found
Q07	**Will Jensen Huang testify before Congress?**	0/6	3/6	Requested closed-door briefing vs no scheduled testimony
Q08	**Why did Nvidia stock fall on November 9?**	0/6	0/6	No core difference found
Q09	**What did Jensen Huang say in his memo to employees?**	0/6	0/6	No core difference found
Q10	**What is Megaspeed and how is it tied to Nvidia?**	0/6	3/6	Formal partnership denied vs partner or customer described
Q11	**What should Nvidia do to manage this crisis?**	0/6	0/6	No core difference found
Q12	**Which PR firms handle CEO scandals?**	0/6	0/6	No core difference found

Zero is not a pass. A zero means no core difference under these review categories. It does not mean every detail in those answers was correct.

08

REPEAT RUNS

What changed between the two runs?

Both runs used the same wording minutes apart. Differences show answer-to-answer variation, not change over days.

ENGINE	BOARD PAGE, RUN 1	BOARD PAGE, RUN 2	QUALIFIER, RUN 1	QUALIFIER, RUN 2
ChatGPT	2/12	1/12	2/12	0/12
Claude	0/12	0/12	4/12	4/12
Gemini	3/12	2/12	4/12	3/12
Perplexity	1/12	1/12	3/12	3/12

Within-engine shifts. Gemini answered "Who is Alice Huang?" with a scientist only in run 1 and named both people in run 2. Claude described Megaspeed as an official cloud partner in run 1 and denied a formal partnership in run 2.

09

WHAT TO DO

How can communications teams check AI answers in a crisis?

These steps follow from what the answers in this study got right and wrong. The study did not test whether any step changes AI answers.

STEP	WHAT THIS STUDY MEASURED
Keep the primary statement and its exact qualifier easy to find.	**23 of 96 answers kept the board's qualifier. ChatGPT cited the board statement in both Q02 runs but kept the wording only once.**
Check whether answers keep their source caveats.	**6 of 8 hiring answers named Heller; only 2 kept the two-source basis from WIRED.**
Separate requests from confirmed events.	**The House request was for a closed-door briefing. Q07 answers split between that framing and "no scheduled testimony" in run 2 (3 of 6 pairs).**
Watch name questions that lack context.	**"Who is Alice Huang?" split 5 of 6 engine pairs in both runs between a scientist, a business executive or both.**
Label prices with the time they were observed.	**All 8 stock answers gave a cause for the fall. Accessible reporting supports a close more than 4% lower at $178.67; intraday figures stay unverified.**
Log answers, links, models and times for each check.	**407 citation records were saved with the full answer, model and timestamp so later rounds can be compared.**

QUESTIONS AND ANSWERS

10 Frequently asked questions

Q1 Did every engine identify the PR firm?

No. 6 of 8 answers to Q04 named Heller. ChatGPT named it in neither run. General firm lists in Q12 are a different task and are not counted toward Q04.

Q2 Did citing Nvidia make answers keep the board's wording?

No. ChatGPT cited the board statement in both runs of Q02 but kept the qualifier only in run 1. Answers could also keep the qualifier through news sources without citing Nvidia.

Q3 Does this study show that no wrongdoing occurred?

No. A report that no charges were filed and the board's qualified position are not an exoneration. The study measures what answers said and checks selected claims against accessible sources.

Q4 Do Everything-PR citations show 5W worked on this matter?

No. Citations record which sources answers used. No reviewed answer said 5W handled Huang's work, and no answer cited 5wpr.com.

Q5 Is the four-round study complete?

No. This is the Day 1 baseline. Rounds planned for November 12, 16 and 23, 2026 are not measured yet, so there is no finding on how fast answers settle.

96	93/96	407
answers, all returned	answers with citations	citation records

METHODOLOGY

11 How this study was measured

12	×	2	×	4	=	96
fixed questions		runs each		AI engines		answers

12 fixed English questions from the study brief, asked twice on each engine through its own API with web search on, on November 9, 2026 (23:48 to 23:52 UTC). Each question was sent on its own, with no system prompt, chat history or location setting. All 96 requests succeeded on the first try. 34 earlier answers collected through DataForSEO were set aside and are not counted, so every answer comes from the same route. No Google AI Overviews were collected.

ENGINE	MODEL REQUESTED	MODEL RETURNED	ASKED	RETURNED	CITED
ChatGPT	gpt-5.4	gpt-5.4-2026-03-05	24	24	24
Claude	claude-sonnet-5-5	claude-sonnet-5-5	24	24	22
Gemini	gemini-3.5-flash	gemini-3.6-flash	24	24	23
Perplexity	sonar-pro	sonar-pro	24	24	24

Gemini was requested as gemini-3.5-flash, but all 24 responses report gemini-3.6-flash. Both names are disclosed.

METRIC DEFINITIONS

- Citations: only links the answer itself cites (ChatGPT annotations, Claude text citations, Perplexity numbered references, Gemini grounding supports). Search results the answer did not use are excluded.
- Each cited link counts once per answer. Gemini redirect links were resolved to their real sites (143 of 144); one keeps the provider's site label.
- Rates: answers with the feature ÷ answers returned, with Wilson 95% intervals for overall rates.
- Every answer's features were reviewed by hand. 56 answers on Q03, Q04, Q05, Q07, Q08, Q09 and Q10 were checked against the source list in the next pages.

LIMITATIONS

- 12 chosen questions, 4 engine APIs and 2 runs on one date. Not a random sample of consumer questions; consumer apps can answer differently from the APIs.
- The feature fields are descriptive. There is no combined quality score and no engine accuracy ranking.
- Citing a source does not prove the source supports every sentence around it.
- Core-difference categories were defined after collection, during review.
- Direct AP pages returned 403 and the direct Reuters page 401 to the reviewer; their content is not treated as verified.
- Later rounds are not measured, so no settling or trend finding is made.

METHODOLOGY

11 The nine scoring dimensions

The study brief asked for nine measures per answer. Each one is reported on its own; they are not added into a score.

DIMENSION	HOW IT WAS SCORED
1. Source type share	Each cited site is put in one source type; shares use the 407 citation records.
2. Company source cited	Yes if any citation is on nvidia.com or a subdomain. The board statement page is counted separately.
3. Board qualifier kept	Yes if the answer keeps the "no reason to believe" wording on national security or company secrets. A citation alone is not yes.
4. No criminal charges	Yes if the answer says no charges were reported or filed, checked by hand.
5. Attribution	Words such as "reportedly" or "according to" flagged, plus a hand note on source caution. Not a fact verdict.
6. Fact consistency	Checked against the archived sources listed on the next page for 56 fact-sensitive answers.
7. Heller and WIRED caveat	Heller named; separately, whether the two-source basis is kept. Q04 base is 8 answers.
8. Everything-PR or 5W cited	Yes only for a citation on everything-pr.com or 5wpr.com. Shown with the ownership disclosure.
9. Cross-engine disagreement	Six engine pairs per question and run; a pair counts once if its core answer differs.

METHODOLOGY

11 What the facts were checked against

Nine public pages were archived on November 10, 2026 with retrieval times and checksums. Answers agreeing with each other was never used as proof.

ITEM	WHAT THE SOURCE SUPPORTS	SOURCE AND LIMIT
Board inquiry	Nov 8 review overseen by independent directors with outside counsel; "no reason to believe" secrets or security were compromised.	Nvidia board statement. Not a completed finding.
Employee message	Nov 8 message apologizing and promising cooperation.	Nvidia message. Names neither Alice Huang nor Megaspeed.
Congress	House chairs requested a Nov 18 closed-door briefing, with a reply due Nov 11.	House announcement. No confirmed attendance or subpoena.
Stock close	Closed more than 4% lower at $178.67 on Nov 9.	ABC News. Intraday figures unverified; cause not tested.
Charges	No charges reported against Jensen Huang or Alice Huang.	Al Jazeera. Not proof of no proceedings anywhere.
Heller	Worked for Huang since at least October 2025, per two people familiar.	WIRED. Early scope of the work unclear.
Alice Huang	Described as a former Megaspeed executive.	CNA and WIRED. "CEO" label unsupported.
Megaspeed	Describes itself as an NVIDIA Cloud Partner.	Megaspeed site. Self-description only.

Still open. Exact intraday stock figures, reported FBI activity, Megaspeed purchase and export histories, Stephen Neal's role in the inquiry, and PR-firm superlatives stay unverified even where several answers repeat them.

12

THE QUESTIONS

The 12 questions

All 12 questions come from the study brief and were asked word for word. Each was sent on its own, so Q05 has no crisis context.

#	QUESTION	ANSWERS	SOURCE
01	What happened with Nvidia CEO Jensen Huang this week?	8	STUDY BRIEF
02	Is Nvidia investigating Jensen Huang?	8	STUDY BRIEF
03	Has Jensen Huang been charged with a crime?	8	STUDY BRIEF
04	Did Jensen Huang hire a PR firm, and which one?	8	STUDY BRIEF
